Marketing, Content & AI Video · Marketing & Creative Lead

I've been doing marketing since I was 15. I started at Iglesia Alianza Reynosa, an organization of about 6,000 people a week, then spent 7 years in corporate communications at Corning, and today I run all marketing at Controlify, a software agency with four products. I build brands end to end: strategy, content, AI video, paid campaigns, websites and the sales funnel through to closing.

10+ years in marketing and content

223 leads in one month on Meta Ads

30+ AI-generated video ads

6,000 people a week at Alianza
